Success is a continuing journey

The greatest challenge on this journey is to react to market changes in the most flexible and efficient way. Technology is the means to an end, but the greatest added value is generated by people and their skills. So make sure you have a solid partner that consults and supports your company with a 360-degree perspective.

Your global partner ... always close by

With itelligence, you get a partner with global, regional, and local capacities and competences. Locations in 22 countries and a broad network of additional expert partners in many more countries enable us to combine excellent process, industry, and IT know-how with a deep understanding of specific regional and local requirements. Our partnership with NTT DATA Group broadens our delivery capacity to a worldwide level.

As a one-stop SAP partner, our top priority is providing fast, smooth, transparent, and efficient solutions and client processes. We are proud of having implemented SAP Solutions for more than 5,000 customers worldwide. Numerous international awards and certifications prove our long-term track record of customer excellence.

» itelligence is one of our most important partners within the SAP Ecosystem. We are proudly looking at nearly 20 years of a very successful, innovative and trusted partnership. «

What we stand for

At itelligence, we believe in an interactive, long-term partnership with our customers: The added value and success of our customers' initiatives are central in determining our thoughts and actions.

We deliver powerful SAP® Solutions to the world: As a one-stop partner, we combine SAP licensing, consulting, implementation and SAP Managed Services to create the right solutions based on our clients' specific interests and needs.

What we are best at

With our proven track record in implementing valuable SAP Solutions, our deep know-how and SAP technology leadership, a worldwide presence, and the passionate commitment of our expert teams, we lay the foundation for our customers' continuing progress and growth.

We foster change and co-innovation: Our experts work hand-in-hand with SAP on new scenarios and groundbreaking solutions for business analytics, in-memory computing and SAP HANA®, cloud, and mobility.
