The Experience to Help You Run Simple

Streamline Your SAP S/4HANA Implementation with Tried and True Expertise

Be Ready for Whatever is Next

The business environment has changed. Information is moving faster, customers demand more, and 'segment of one'-driven processes and decisions must be made in real time. To keep up, businesses need solutions built for today's landscape that can deliver insight across the value chain.

SAP Business Suite 4 SAP HANA (SAP S/4HANA) is built on the most advanced in-memory platform available today, and is designed to run simple in the face of growing business complexity. Across industries, enterprises are tapping into the potential of real-time insight through the next-generation digital business suite and driving new value at all levels.

Ensure a Smooth Transition

SAP S/4HANA offers your business the ability to unlock new value throughout your organization, but a smooth implementation process is key to long-term success. As a trusted SAP-Certified Partner, itelligence has the experience and know-how to ensure your SAP S/4HANA implementation goes as planned so you can start realizing value, fast.

Whether your organization is new to SAP or simply seeking to migrate, itelligence can help define your roadmap and set a course for S/4HANA, either through a customized solution or via a common route, including:

- Landscape transformations
- System conversions
- New implementations
 - Cloud
 - On-premise
 - Hybrid

SAP S/4HANA Adoption
