

Top 10 Reasons for SAP SuccessFactors to Improve Your Employee Experience in the Future

Reason 1

INNOVATIVE HR SOLUTIONS

Transforming and reinventing human resources – with intelligent services, machine learning, digital assistants, data analysis and much more.

Reason 2

EMPLOYEE EXPERIENCES

Link all areas, from core HR functions to recruiting, onboarding, training, development, succession planning, workforce analysis, employee experience management, performance and goals, and payroll in the best sense of your employees through a consistent and simple experience.

Reason 3

THE EMPLOYEES IN FOCUS

With HXM tools, companies can collect feedback in those moments when it matters most and take action accordingly.

Reason 4

POWERFUL ANALYSES

In addition to operational data (O-data), HXM tools can also capture experience data (X-data) – the consolidation of these data enables companies to improve the employee experience.

Reason 5

INTEGRATION OF X-DATA

X-data provide information on why things are happening – enabling companies to identify and close gaps in the employee experience.

Reason 6

SPECIAL EXPERIENCES

By continuously collecting feedback in combination with intelligent technologies such as machine learning, companies can provide engaging experiences for their employees.

Reason 7

INNOVATIVE EXPERIENCES

Personalized, contextual and intuitive solutions and applications - these are the basics to redesign employee experiences and to engage and motivate employees.

Reason 8

OPEN, INNOVATIVE PLATFORM

HXM covers all activities that involve employees. With the network of partner applications, companies have access to solutions and tools designed for the use with SAP SuccessFactors software.

Reason 9

FLEXIBLE PROVISIONING

Faster start, earlier added value and the ability to grow with your business.

Reason 10

STRONG PARTNER

itelligence has been doing SAP HCM projects for 25 years - since 2014 SAP SuccessFactors. itelligence has over 150 customers in the SAP SuccessFactors area and realized more than 260 projects worldwide.
